

Honolulu International Airport to the Institute for Astronomy

From the Airport to the IfA

Take Interstate Route H-1 east (toward Honolulu) and take the Punahou Street exit. At the exit stoplight make a left onto Punahou Street. Continue up Punahou Street through the traffic light at Nehoa Street. Get in the right lane and continue through another light at Lanihuli Drive. After this light, take the right fork. You will now be on East Manoa Road. Continue on East Manoa Road, cross Oahu Avenue (a continuation of University Avenue), and make the next right at Kolowalu Street. Kolowalu Street becomes Woodlawn Drive.

The Institute's address is 2680 Woodlawn Drive. Our modern-style, two-story buildings are located on the left side of Woodlawn Drive, just after the UH Press buildings and across the street from Noelani Elementary School. There is a grassy lawn and "Institute for Astronomy" sign out front. If you park in the IfA parking lot, be sure to ask the IfA Administration Office for a visitors parking pass. If you have any questions, please call us at 956-8566.
