

What is the Role of a Hollywood Science Advisor?

Join Dr. Kevin R. Grazier, science advisor for the SyFy Channel, series "Defiance" and the recent film "Gravity". Dr. Grazier also worked on "Battlestar Galactica", "Eureka", "Falling Skies", "The Zula Patrol" and many other series in the same role.

The last 15 years has found Dr. Grazier as planning engineer at NASA's Jet Propulsion Laboratory on the Cassini/Huygens Mission. He is a sought out speaker at JPL. As a software programmer, he saved the Cassini project an estimated \$250,000 through his planning and analysis software.

Join Dr. Grazier as he brings science and science fiction together and learn about the role of a Hollywood Science Advisor!

it's a Journey through the Universe event co-sponsored by the UH Hilo Department of Physics and Astronomy
